DLA ptAU11 (2023) Vegan Compliance Check – 2 Samples qualitative: Animal ingredients in Vegan Burger (fried)

Test material* :

Two different samples (positive sample and negative sample) with possible contents of animal components are provided for qualitative determination. The positive sample contains **at least two animal components > 0.1% (e.g. egg, fish, meat/gelatine, milk components and/or honey)**. The parameters are present in the matrix of vegan burgers (fried).

Sample weight: 2 Samples 50 g each.

* **Note:** Control of mixture homogeneity and qualitative testings are carried out by DLA. Any testing of the content, homogeneity and stability of PT parameters is subcontracted by DLA.

Methods + realisation time:

Analytical methods for quantitative determinations are optional.

There is a 6 weeks period for performing the analysis. The results are transmitted online via our customer portal.

Evaluation report:

The evaluation is carried out **strictly qualitatively (positive/negative)** with indication of the obtained agreements with the consensus values of the participants and the spiking of samples A and B. All results including quantitative results, limits of detection and/or quantification and remarks to the methods will be documented. DLA intends to finish the evaluation report within 6 weeks after deadline of results submission.

Each participant receives an anonymized, complete evaluation report as a PDF-file, identifying the own results by individual code in case payment was done and can object in writing to the evaluation within 6 weeks.
