

DLA 07/2014-Allergene VII: Crustaceae and Cashew in Instant product with “ Spiking Material Sample“

terms

Test material :

There are two different samples of instant powder possibly containing the allergenic ingredients crustaceae and cashews in the range of mg/kg. Additionally a „Spiking Material Sample“ is provided. It contains 1-10% of the allergenic items in potatoe flour. The material is tested for homogeneity.

Order :

Registration deadline is 5th December 2014.

The reliable order can be sent to our partner Coring System Diagnostix, can be faxed to us, DLA, using attached order form, or using the order form available from www.dla-lvu.de. The minimum number of participants is 10.

Sample shipment :

The samples will be sent to participating laboratories in the week 50. Each participant receives two different sample portions, 25 g each. The „Spiking Material Sample“ contains 10 g.

Invoicing / Price :

The price for the proficiency test is

195,-- € / participant plus shipping and tax. Shipping and invoicing to other countries than Germany are done by our partner Coring System Diagnostix. Invoices are payable within 2 weeks, for participants from Non-European countries pre-payment is required.

Realisation :

There is a 8 weeks time for performing the analysis. The method of analysis is optional. Deadline for results submission is 06th February 2015. Submission should be done by e-mail with a prepared excel-file, available from DLA.

DLA intends to finish statistics and interpretation within 8 weeks after deadline for the results. Statistics imply test for outliers, robust mean, median, robust standard deviation and z-score. Evaluation includes results of crustaceae and cashews. Single-results, recovery and details about the method of analysis will be documented as submitted.

Each participant receives an anonymised, complete analysis report, identifying the own results by individual code in case payment was done.
