

DLA-18/2014 – Ergot-Alkaloides in Cereal Product

terms

Test material :

The material is a naturally ergot contaminated grain flour. The material is tested for homogeneity.

Order :

Registration deadline is 07nd March 2014.

The reliable order can be sent to our partner Coring System Diagnostix, can be faxed to us, DLA, using attached order form, or using the order form available from www.dla-lvu.de. The minimum number of participants is 10.

Sample shipment :

The samples will be sent to participating laboratories in the week 11. Each participant receives two portions of the same sample, 40 gram each.

Invoicing / Price :

The price for the proficiency test is 250,-- € / participant plus shipping and tax. Shipping and invoicing to other countries than Germany is done by our partner Coring System Dia-

gnostix. Invoices are payable within 2 weeks, for participants from Non-European countries pre-payment is required.

Realisation :

There is a 6 weeks time for performing the analysis. Deadline for results submission is 28th April 2014. Submission should be done by e-mail with a prepared excel-file, available from DLA.

DLA intends to finish statistics and interpretation within 8 weeks after deadline for the results. Statistics imply test for outliers, robust mean, median, robust standard deviation and z-score.

Statistics will be performed with laboratory mean value of each ergot-alkaloid and laboratory sum of ergot-alkaloids. Recovery and details about the method of analysis will be documented as submitted.

Each participant receives an anonymized, complete analysis report, identifying the own results by individual code in case payment was done.
