DLA- 24/2014 - GMO-Soya (RR) quantitative in Pastry with " Spiking Material Sample "

terms

Test material :
The test material is a pastry containing soya product. Additionally a "Spiking Material Sample" containing Round-Up Ready soya is provided, which was used for the PT sample. The material is tested for homogeneity.

Order :
Registration deadline is 27th June 2014.
The reliable order can be sent to our partner Coring System Diagnostix, can be faxed to us, DLA, using attached order form, or using the order form available from www.dla-lvu.de. The minimum number of participants is 10.

Sample shipment :
The samples will be sent to participating laboratories in the week 27. Each participant receives two identical portions, 10 g each.

Invoicing / Price :
The price for the proficiency test is 175,-- € / participant plus shipping and tax. Shipping and invoicing to other countries than Germany is done by our partner Coring System Diagnostix. Invoices are payable within 2 weeks, for participants from Non-European countries pre-payment is required.

Realisation :
There is a 6 weeks time for performing the analysis. The method of analysis is optional. Deadline for results submission is 15th August 2014. Submission should be done by e-mail with a prepared excel-file, available from DLA.
DLA intends to finish statistics and interpretation within 8 weeks after deadline for the results.
Statistics imply tests for outliers, robust mean-value, median, standard deviation and z-scores.
Single results, limits of detection and quantification and details about the method of analysis will be documented as submitted.
Each participant receives an anonymized, complete analysis report, identifying the own results by individual code in case payment was done.
