

DLA 40/2014 Contact Material III: PAH from Plastic Skin Contact Material

Terms

Test material :

The material is a chopped car accessory, used for long term skin contact.

The material is tested for detectability of PAH.

Order :

Registration deadline is 14th November 2014.

The reliable order can be sent to our partner Coring System Diagnostix, can be faxed to us, DLA, using attached order form, or using the order form available from www.dla-lvu.de. The minimum number of participants is 10.

Sample shipment :

The samples will be sent to participating laboratories in the week 47. Each participant receives 1 sample of approximately 5 g.

Invoicing / Price :

The price for the proficiency test is 330,-- € / participant plus shipping and tax. Shipping and invoicing to

other countries than Germany are done by our partner Coring System Diagnostix. Invoices are payable within 2 weeks, for participants from Non-European countries pre-payment is required.

Realisation :

There is a 8 weeks time for performing the analysis. The method of analysis is optional. Deadline for results submission is 16th January 2015. Submission should be done by e-mail with a prepared excel-file, available from DLA.

DLA intends to finish statistics and interpretation within 8 weeks after deadline for the results. Statistics imply test for outliers, robust mean, median, robust standard deviation and z-score.

Results and details about the methods used will be documented.

Each participant receives an anonymised, complete evaluation report, identifying the own results by individual code in case payment was done.
